Birth Chart of the Year –

4 Feb 2023

- Yin Water is weak – clouds on the sky, not raining, not rooting, water keeps evaporating = **an unstable, ungrounded year**
- **Wood & Fire** represents **earning via creative expressions** –will be very favourable this year
- Also means high demand > overproduce > wastage because of **distribution issues**; can you provide a solution??
- **3 movement stars with “ungrateful punishment”** = lots of pressurized **changes** in careers, houses, assets & investments, living places, relationships; yet if you are relocating or starting business based on fad, by the time you have invested a lot to complete the process, you might not get the results as you predicted.
- Many divorces, as well as **marriage + new born**
- Internal wealth elements: Be the ones **who produce more** than you consume! **Hard work and hustles** are the dominant theme.
- Many people would **start their businesses** this year – not all will work out
- More mutual trust, healing, recovery of neighbourhood support can help us through the times

Invisible aftermath of health crisis

- Long Covid
- Children's development – how to breathe, social skills, language, face recognition, trusting (not) to people and environment

accumulated after prolonged lockdown, lack of movements, isolation & fear state
- **Immunity in decline to other viruses**
because of prolonged mask wearing + overuse of disinfectant (in regions which were strict)
- V side effects etc etc etc

- **Pandemic?** Not ending yet, not the same one either
- **Lockdown?** Lots of travelling (with hiccups in Q1), relocation and migration
- **Creator economy:** favourable for individual content creators to **create your own jobs**; also many **quirky gigs** to increase income, entrepreneurial endeavours
- **Fads** comes and goes e.g. **Curiosity in occult/ dark spirits/ black magic (not recommended)**
- **Timing issues is big:** high demand, oversupply with distribution issues, wastages
- **A year of intuitive awakening for many!** Head in the clouds could also brings addiction to **fantasy**
- **Lots of relocation**, change of careers & relationships, new borns
- **King, CEO, Man in the Top** will have crisis, health issues, losing in power struggle
- Beware of **legal /jail because of speech** esp. young men & **schools**
- **Women / Mum** will have stronger financial power this year; **Young women** might suffer in terms of **human rights**, then lead to social movements to disrupt the status quo

2023 Feng Shui Flying Stars

4 Feb 2023 - 3 Feb 2024

Look at the chart and check which star is falling into your:

- **Front door/ main entrance** (most important)
- **Bedroom** (where you spent the most hours asleep)
- **Living room or work desk** (where you stay the longest time awake)
- **Stove** (if you cook)

If your main door,
bedroom or stove
falls into the **North
West or East...**

To Reduce The Effects of the Illness(2) and Hazard(5) Stars:

- **Door:** Place a door mat (white or metallic color) and place a piece of copper **metal** plate underneath
- **Kitchen:** Don't cook or use another stove
- **Bed:** Move to sleep elsewhere if possible!
- **Living room:** don't stay in these sectors for too long; move away your sofa
- *See the dentist after 4 Feb, blood donation, get a body check-up or blood test!*

If your main
door, bedroom
or stove falls into
the **West** ...

- **3 Clashes** means betrayals and being targeted by authorities' figures

To Reduce The Effects of the 3 Clashes:

- Put a glass or bottle of water & change often to reduce the violent energies here if you are a sector you spend time often in

*The Best Feng Shui Strategy is **not** about what stuff you put there; it is where you, a living breathing being, **spend the most time in**, performing **activities that ACTIVATE** the energy of that sector at the **RIGHTTIMING!***

One More Tip to Heighten Your Intuition!

Intuition is a muscle!!!

- Sit with your back by a solid wall
- Slow your breathing and calm your mind
- Counting down from 64 to 1
- Talk to your higher wisdom: Ask – What is my next best step to get closer to your goal?
- Do this everyday, write down all your clues, serendipities throughout the day, and find patterns and clues 😊
